Creating Materials and Energy Solutions

EXCELLENCE:

We are recognized for world-class research, nurturing excellence in science, education and people.

PEOPLE:

Our people are the core of our success.

SAFETY:

We demonstrate that safety and world-class research go hand in hand.

INSPIRATION:

We inspire future generations by exciting them about science.

AGILITY:

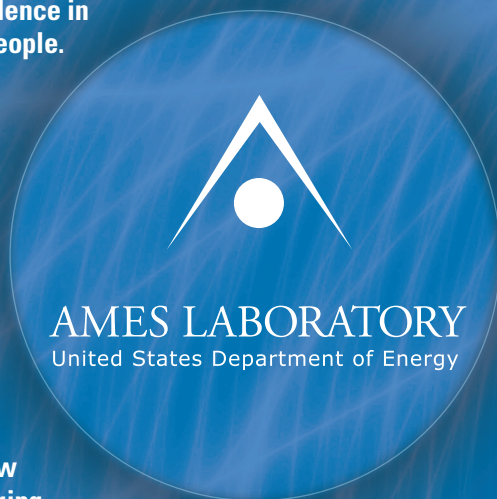

We adapt with agility to new opportunities and the changing needs of society.

INNOVATION:

We link fundamental science of matter with application to create technological innovation.

COLLABORATION:

We are singularly focused on applying a multidisciplinary approach to the discovery, design and invention of new materials. We foster collaboration globally.

AMES LABORATORY
United States Department of Energy

A U.S. Department of Energy laboratory operated by Iowa State University
